LONE WORKER FUNCTIONALITY (LW) WITH LOCATION BASED SERVICES (LBS) BASED ON SONIM XP 3340 SENTINEL

OVERVIEW

What has Lone Worker functionality plus LBS to offer?

KEY BENEFITS

LBS technology, combined with Lone Worker functionality, provides medical facilities and industry with the added security of a fully owned solution for direct localisation and back-up for employees in distress. The solution runs on the CapX Private GSM communications-infrastructure and is supported by two-way speech communications.

LBS + LW ensures that you know where your employees and medical equipment are in case of an emergency.
