

Change your view of what a rugged phone can do.

The SonimXP8 is ultra-rugged, ultra-smart and ultra-loaded with tough features, productivity tools and unrivaled support that delivers communication you can count on. Built to perform in extreme environments, the XP8 is as durable as it gets.

Built to withstand, designed to serve. The Sonim XP8 is as intelligent as it is indestructible.

Built to meet Rugged Performance Standards (RPS)

Powered by SonimWare applications

Sonim CLOUD
Setup and support when and where you need it
A comprehensive, cloud-based toolbox with setup, utility, and support solutions that allow admins to update and manage devices easily.

Sonim SCOUT
Simplified device management
From fast deployment to device control and troubleshooting, SCOUT makes managing and customizing your team's devices a breeze.

Sonim SCAN
Swift and seamless scanning
The XP8 provides powerful, on-device barcode scanning capability that lets you capture large amounts of data quickly and confidently.

Coming Soon
Sonim S.O.S.
Increased worker safety
A powerful app connected to an easy-to-use alarm key that offers a variety of free safety features for workers in the field.

Sonim XP8

Comes with SonimCare

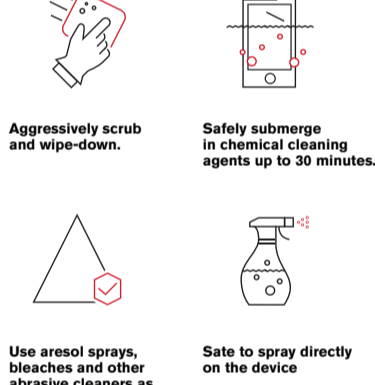

Get connected and get going with a full suite of on-site or contactless deployment and training and 24x5 remote support to keep your team equipped, supported and productive.

Can be disinfected

Concerned about dangerous pathogens and infectious threats? The Sonim XP8 can be sprayed, submerged, and rigorously cleaned with soap and water, disinfectants, and even harsh chemical cleaners.

Backed by a 3-year warranty

Designed to meet industry-leading Rugged Performance Standards, but backed by an unmatched 3-year comprehensive warranty. So you can communicate more and worry less.
