DISPOSAL OF OLD ELECTRICAL AND ELECTRONIC EQUIPMENT
The symbol of the crossed-out wheeled bin indicates that within the countries in the European Union, this product, and any enhancements marked with this symbol, cannot be disposed as unsorted waste but must be taken to separate collection at their end-of-life.

DISPOSAL OF BATTERY
Please check local regulations for disposal of batteries. The battery should never be placed in municipal waste. Use a battery disposal facility if available.

GUIDELINE FOR HEADPHONE AND EARPHONE
To prevent possible hearing damage, please do not listen at high volume levels for long periods.

REGISTER YOUR PHONE
Please register your phone at http://sonimxperience.com/registration_portal/portal/registration.php to receive product information and updates.

Sonim devices are covered by a 3-Year comprehensive warranty. The battery is covered by a 1-Year limited warranty.

## HAZARDOUS LOCATION USAGE WARNING

## INDEX
SAFETY GUIDELINES

Please read and understand the following safety guidelines before you use the phone. These guidelines provide details to enable you to operate your phone safely and conform to any legal requirements regarding the use of cellular phones.

Do not use the phone at a refueling point. Observe restrictions when using radio equipment at fuel depots, chemical plants or where blasting operations are in progress.

Electrical interference may obstruct the use of your phone. Observe restrictions in hospitals and near medical equipment.

Switch off your cellular phone when in an aircraft. Wireless phones can cause interference or danger to an aircraft. In an aircraft, the phone can be used in flight mode.

Do not expose the device to high temperatures (in excess of 55°C).

Adhere to road safety laws. Do not hold/ use a phone while you are driving; find a safe place to stop first. Use hands-free microphone while you are driving.

Avoid using the phone in close proximity to personal medical devices, such as pacemakers and hearing aids.

Use only Sonim XP5800 approved charging equipment to charge your phone and avoid damage to your phone.

The symbol of the crossed-out wheeled bin indicates that this product and any enhancements marked with this symbol, cannot be disposed as unsorted waste but must be taken to separate collection at their end-of-life.

Ensure that only qualified personnel install or repair your phone.

The Sonim XP5800 is water-proof and can be submerged to 2 meters for 30 minutes.

Ensure that the audio connector and the SIM slot are properly closed. This will prevent the deposit of water droplets on the connectors, when the phone is immersed in water.

Water droplets may condense under the display cover if the phone is immersed in water with significant drop in temperature. This does not indicate water leakage. The droplets will disappear at room temperature.

The Sonim XP5800 is dust-resistant, rugged and shock-resistant. However, it is not dust-proof or unbreakable if subjected to overwhelming impact. For best results and long product life, one should protect the Sonim XP5800 from salt water, dust and strong impacts.
AVOID HIGH TEMPERATURES

Leaving the device in hot or cold places, such as in a closed car in summer or winter conditions, reduces the capacity and lifetime of the battery. For the best results, try to use the device between -20°C and +55°C (-4°F and 131°F). A device with a hot or cold battery may not work temporarily, even when the battery is fully charged. Battery performance is particularly limited in temperatures well below freezing.

PERSONAL MEDICAL DEVICES

Mobile phones may affect the operation of cardiac pacemakers and other implanted equipment. Please avoid placing the mobile phone over the pacemaker, for example in your breast pocket. When using the mobile phone, place it at the ear opposite the pacemaker. If a minimum distance of 15 cm (6 inches) is kept between the mobile phone and the pacemaker, the risk of interference is limited. If you suspect that interference is taking place, immediately turn off your mobile phone. Contact your cardiologist for more information. For other medical devices, consult your physician and the manufacturer of the device. Comply with instructions to switch off the device or deactivate the RF transmitter when required, especially when posted in hospitals and airplanes. Equipment used in these places may be sensitive to radio waves emitted from the device and adversely affect their operation. Also, observe restrictions at gas stations or other areas with flammable atmosphere or when close to electro-explosive devices.

CHILD SAFETY

Do not allow children to play with your mobile phone or its accessories. Keep it out of their reach. They could hurt themselves or others, or could accidentally damage the mobile phone or accessories. Your mobile phone and its accessories may contain small parts, which could be detached and create a choking hazard.

EMERGENCY CALLS

Mobile phones operate using radio signals, which cannot guarantee connection under all conditions. Therefore you should never rely solely upon any mobile phone for essential communications (e.g. medical emergencies). Emergency calls may not be possible in all areas, on all cellular networks, or when certain network services and/or mobile phone features are in use. Check with your local service provider.

WARNING

It is not allowed to connect any external devices to all ports/interface (USB, XPand and SecureAudio Connector) in Hazardous area.

BATTERY USAGE

Sonim XP5s phone comes with a removable battery. For any battery related queries, contact Sonim customer support.

• Use only a Sonim XP5800 certified battery that is designed for this phone model.
• The use of other batteries may void the warranty terms of your phone and cause damage.
• It is recommended to protect the battery from extreme temperature environments and moisture.
• Please keep the battery out of the reach of children.

INSERTING THE BATTERY

1. UNSCREW COVER

To open the battery cover, rotate both the battery cover screws in a counter clockwise direction (as shown in the figure). Sometimes, the battery cover may be tight and some extra effort is required to open it. You can use the screwdriver provided to open the screws.

2. LIFT THE COVER

Lift the back cover to reveal the battery slot.
3. INSERT BATTERY
Insert the battery and flush into the battery slot such that the three metallic contacts at the top of the battery are aligned with the metallic contacts within the battery compartment.

4. CLOSE COVER
Close the battery cover. Rotate the battery cover screws in clockwise direction. You can use the screwdriver provided to tighten the screws. Ensure not to overtighten the screws.

1. INSERT CHARGER
Insert the charger plug into a power outlet.

2. CONNECT TO THE PHONE
The charging port is located in the lower side of the phone, below the back cover. Insert the charger connector to the charging port.

3. CHARGING ANIMATION/ICON
- If the battery is being charged when the phone is switched off, a battery charging animation with current battery level is displayed.
- If the battery is being charged while the phone is switched on, the battery icon on the status bar shows the animation indicating that the battery is being charged.
- Once the battery is fully charged, charging animation is displayed and a pop-up is displayed “Battery is full Please unplug the charger”.

CHARGING THE BATTERY
The battery delivered with your mobile phone is not fully charged. We recommend that you charge your mobile for 5 hours before you use your mobile phone for the first time.

- Only the power supplies with outputs meet the SELV requirements can be used for charging. The maximum allowable input voltage for the phone is 9v.

- There is a risk of explosion while charging if the battery has been replaced by an incorrect type.

- If the battery is completely out of charge, it can take several minutes for the charging icon to appear when the charger is connected.

VERIFYING AND OPTIMIZING BATTERY USAGE
You can check the battery usage status and also close some applications to save battery power. In the all application screen, select Settings (⚙) > Battery (🔋).

The current battery level (charging or not charging) is displayed on the top of the screen. The discharge graph on the top of the screen shows the battery level over time since you last charged the device, and how long you have been running on battery power.

The list at the bottom of the screen shows the breakdown of battery usage for individual apps and services. Select any listed items to view more details. The details screen for some apps includes buttons that allow you to adjust settings affecting power usage, or stop the application completely.

- If you stop some apps or services, your device may not work correctly.
TIPS TO EXTEND THE BATTERY LIFE

Follow these tips to extend your phone’s battery life.

- If you are not using Wi-Fi, Bluetooth, or GPS, use the Settings to turn them off. The GPS setting is located in Settings > Security & Location.
- Set screen brightness to Low and set a shorter Sleep timeout (15 seconds). The display settings are located in Settings > Display.
- If you are travelling and do not have access to mobile data or Wi-Fi network, switch to Airplane mode. Select Airplane mode from Quick Settings.

WARNING

![Warning icon]

BATTERY CAN BE REPLACED ONLY IN NON-HAZARDOUS LOCATION.

YOUR SIM CARD

Purchase a SIM card from a mobile operator. The SIM card associates your network services (for example, phone number, data services, and so on) with your phone.

REMOVING THE BACK COVER

1. UNSCREW COVER
   To open the battery cover, rotate both the battery cover screws in counter clockwise direction (as shown in the figure).

2. LIFT THE COVER
   Lift the back cover to reveal the battery slot.

3. USE SONIM SCREWDRIVER
   You can use the Sonim provided screwdriver tool to open and close the screws.
INSERTING THE SIM CARDS

1. UNSCREW COVER
   Use the included screwdriver to unscrew the two battery cover screws on the back of the phone.

2. LIFT THE COVER
   Remove the battery cover and the battery.

3. INSERT SIM CARD 1
   Open the SIM card tray 1. Insert the SIM card and lock the SIM card tray into place.

4. INSERT SIM CARD 2
   Open the SIM card tray 2. Insert the SIM card and lock the SIM card tray into place.

Both the SIM cards are active when inserted at the same time.

INSERTING MEMORY CARD

1. SLIDE THE SILVER CLIP
   Slide (push forward) and lift the silver clip over the designated slot located beside the SIM card slot. (as shown in the figure).

2. PLACE THE MEMORY CARD
   Place the memory card in the designated slot and close the silver clip. (as shown in the figure).

3. USE SONIM SCREWDRIVER
   You can use the Sonim provided screwdriver tool to open and close the screws.

**PHONE OPERATIONS WITHOUT SIM CARD**

You can perform the following operations without inserting a SIM card in your phone.

- Make an emergency call.
- View and modify all settings except few data usage and mobile network related settings.
- Activate and share files through Bluetooth.
- Access the internet using Wi-Fi connectivity.
- Access your phonebook, File explorer multimedia files, all tools and applications.
- View and modify your profile settings.

**CAPTURING A SCREENSHOT**

You can take the screenshot of the current screen and it is stored in your phone’s gallery. To take a screenshot:

1. Ensure that the image to be captured is displayed on the current screen.
2. Press the **Power** and **Volume down** button simultaneously. The screenshot is captured and stored in the gallery. A screen Capture (📸) icon is also displayed on the notification bar.

**TO CHANGE THE MESSAGE LANGUAGE**

While entering the text message or saving the contacts, you can change the message language by press and hold the * key.

You can change the **Language** from **English** to **Español** or **Français** and vice versa.

**TEXT ENTRY OPTIONS**

When you enter the text message, you can change the text entry options by pressing the # key. The current text entry options are displayed in the top bar.

The various text entry options are:

- **English**:
  - ABC: Enter all the text in upper case.
  - Abc: Enter the first letter of the sentence in upper case.
  - abc: Enter all the text in lower case.
  - 123: Enter the numbers.

- **Español**:
  - ESABC: Enter all the text in upper case (capitalized).
  - ESabc: Enter all the text in lower case.
  - ESAbc: Enter the first letter of the sentence in upper case.
  - 123: Enter the numbers.

- **Français**:
  - FRABC: Enter all the text in upper case (capitalized).
  - FRabc: Enter all the text in lower case.
  - FRAbc: Enter the first letter of the sentence in upper case.
  - 123: Enter the numbers.

- **Hebrew**:
  - IWABC: Enter all the text in upper case (capitalized).
  - IWabc: Enter all the text in lower case.
  - IWAbc: Enter the first letter of the sentence in upper case.
  - 123: Enter the numbers.
TO ENTER A WORD

1. Start by pressing the numeric keys from 2 through 9 only once for the required letter.
   • Ex 1: To enter the word Good, press 4-6-6-3. The word displays on the screen as you type.
   • Ex 2: To enter the word Hello, press 4-3-5-5-6. The word displays on the screen as you type.
2. If the word does not display correctly, press right navigation key to scroll through alternative word choices. Press either the center navigation key or 0 key to accept the word.

TO INSERT A NUMBER

1. Press the key labeled with the number you want and use the navigation key to scroll to that number as above.
2. To insert a symbol, press and hold the numeric key 1 and use the navigation key to scroll and select a symbol.

DIFFERENT METHODS TO ENTER TEXT

When English is selected as input language:

• T9ABC: Enter the text based on the T9 dictionary. All the letters are in upper case (capitalized).
• T9Abc: Enter the text based on the T9 dictionary. Only the first letter of the sentence is in upper case (capitalized).
• T9abc: Enter the text based on the T9 dictionary. All the letters are in lower case.

When Español is selected as input language:

• T9ESABC: Enter the text based on the T9 dictionary. All the letters is in upper case (capitalized).
• T9ESAbc: Enter the text based on the T9 dictionary. Only the first letter of the sentence is in upper case (capitalized).
• T9ESabc: Enter the text based on the T9 dictionary. All the letters are in lower case.

When Français is selected as input language:

• T9FRABC: Enter the text based on the T9 dictionary. All the letters is in upper case (capitalized).
• T9FRAbc: Enter the text based on the T9 dictionary. Only the first letter of the sentence is in upper case (capitalized).
• T9FRabc: Enter the text based on the T9 dictionary. All the letters are in lower case.
HOME SCREEN MENU OPTIONS

In order to see the details about any notifications, on the home screen, select Options key.

The following options are displayed:

- My Notifications
- Wallpaper
- Search
- Home screen shortcuts
- System settings
- Manage apps

MY NOTIFICATIONS

The left-hand top on your device is where your applications and message services can drop you a note that there is something new to look at, e.g. missed calls, new messages and downloads.

WALLPAPER

You can set an image or a photo stored in your phone as your home screen wallpaper.

To change the wallpaper, select from one of the following Wallpaper collections.

From Home screen, press Options key > Wallpaper. Select Wallpapers from the popup.

- Gallery: includes photos and screenshots taken using the phone’s camera.
- Wallpapers: includes images that are pre-loaded with the phone.

SEARCH

You can search for people, places, music, movies, history and many more. Enter the key word in the search bar and the list is displayed.

HOME SCREEN SHORTCUTS

The navigation Up, Center and Down keys are displayed.

For more information, refer to “Storage” on page 26.

SYSTEM SETTINGS

System settings refers to the following settings:

- “network & internet” on page 18
- “apps & notifications” on page 22
- “storage settings” on page 26
- “system Settings” on page 28

MANAGE APPS

You can manage application and force stop them.

For more information, refer to “Apps info” on page 22.
**QUICK SETTINGS**

In order to see the quick settings, on the home screen, select **Left Navigation key**.

The following settings are displayed:

- Wi-Fi
- Data
- Bluetooth
- Torch
- Airplane mode
- Profiles

These settings can be enabled or disabled.

**WI-FI**

You can enable or disable Wi-Fi settings. For more information, refer to “wi-fi” on page 18.

**DATA**

For more information, refer to “Data usage” on page 19.

**BLUETOOTH**

You can toggle between **ON** and **OFF**. For more information, refer to “Mobile network” on page 19.

**TORCH**

You can set the **Torch ON** and **OFF**.

**AIRPLANE MODE**

Toggle the button to enable or disable the airplane mode. For more information, refer to “Airplane mode” on page 20.

**PROFILES**

You can select the profile from the list:

- Standard
- Outdoor
- Silence
- Meeting

For more information, refer to “Sound” on page 25.

---

**MISSED EVENTS**

To view the missed events, on the home screen, select **Right navigation key**.

Missed events are the missed calls or any events which were saved earlier on the device are listed as missed events.

The missed events can be:

- **Missed calls**: When you miss a call to receive, you get a event notification.
- **Calendar events**: When you have saved an event like birthday, travel etc, and you missed that event on that particular day, a message is displayed in missed events.
- **New messages**: The unread messages are displayed in missed events.
- **Alarm**: A missed alarm is displayed in missed events.
- **New Voicemail**: A new voice mail is displayed in missed events.
**WI-FI**

Wi-Fi is a wireless network technology that can provide internet access at distance up to 100 feet, depending on the Wi-Fi router and surroundings.

You can access internet when you connect your XP5s to a Wi-Fi network. To connect your phone to a Wi-Fi network;

1. From **Home** screen, select **Menu** ( ) > **Settings** ( ) > **Network & Internet** ( ).
2. Select **Wi-Fi** ( ) and turn **ON**. A list of Wi-Fi access points present within your phone’s accessible range are displayed.
3. Select your preferred network. Enter the WEP/WPS/WPA key (if it is a secured network) and select **Connect**. To verify the password before connecting, enable **Show password**.

It is always recommended to make your Wi-Fi network connection secure and also to connect your phone to a secure network.

**ADD NETWORK**

1. In **Wi-Fi** settings screen, select **Options key** ( ) > **Add network**.
2. Enter the following details:
   - **Network name**: The wireless network ID.
   - Security: Set the security type to None, WEP, WPA/WPA2 PSK, 802.1x EAP.
3. Enable **Advanced options** to set the Proxy details and IP settings.
4. Select **Save** to save the network settings.

**CONNECT TO A NETWORK**

1. Press center key on any of the listed network.
2. Enter the password on the prompted window and get connected to the network.

**EDIT A NETWORK**

1. Press and hold the connected network.
2. Select **Modify network**. You can change the network password. The other network setting details such as **Advanced options**, **Proxy**, **IP settings** can be updated.
3. Select **Save** to save the changes.

**FORGET A NETWORK**

1. Press and hold the connected network.
2. Select **Forget network**. The selected network gets disconnected and displayed in the Wi-Fi list. If you have to get connected to the same network, enter password.

**SCANNING SETTINGS**

1. From **Home** screen, select **Menu** ( ) > **Settings** ( ) > **Network & Internet** ( ).
2. In **Wi-Fi** settings screen, select **Options key** ( ) > **Scanning settings**.
3. Following two options are displayed:
   - **Wi-Fi scanning**: Turn **ON** this option to improve location services by allowing the system apps and services to detect Wi-Fi networks at any time.
   - **Bluetooth scanning**: Turn **ON** this option to improve location services by allowing the system apps and services to detect Bluetooth devices at any time.

**WI-FI PREFERENCES**

1. From **Home** screen, select **Menu** ( ) > **Settings** ( ) > **Network & Internet** ( ).
2. In **Wi-Fi** settings screen, select **Options key** ( ) > **Wi-Fi preferences**.
3. The following options are displayed:
   - **Advanced**: The following options are displayed:
     - **Open network notification**: Enable this option to notify you when a high-quality public network is available.
     - **Install certificates**: You can browse a certificate for installation.
     - **Network rating provider**: By default, this option is greyed out.
     - **Wi-Fi Power Configuration**: You can select any of the following options to keep the Wi-Fi ON during sleep: **Always (Increases battery Consumption)**, **Only when plugged in** and **Never (Increases data usage)**
     - **Wi-Fi Direct**: Select **Option key** > **Searching** to search for the peer devices and also select **Rename device** to rename the device.
     - **WPS Push Button**: Press the **WPS Push Button** in your router, when prompted.
     - **WPS Pin Entry**: Enter the given PIN number on your Wi-Fi router.
     - **MAC address**: A **MAC** (Media Access Control) address is displayed.
     - **IP address**: An **IP (Internet Protocol)** address is displayed.
MOBILE NETWORK

1. From Home screen, select Menu ( 📲 ) > Settings ( ☰ ) > Network & Internet ( 📡 ).
2. Select Mobile network ( 📡 ).
3. Under Network settings, you have the following options:
   - Mobile data: You can turn ON/OFF Mobile data to access data using mobile network. Enable Mobile data to get connected to the internet and use mobile data services such as email, web browsing and push notifications over the cellular network.
   - Roaming: Enable roaming to connect to the data services when on a different network or out of your home country.
   - Data usage: Data usage refers to the amount of data utilized by your phone during data transfers through internet. The data usage charges are dependent of the wireless plan provided by your service provider.
   - Enhanced 4G LTE Mode: Enable this option to improve voice and other communications.
   - Select Preferred network type. The following options are displayed:
     - LTE/UMTS/GSM
     - UMTS/GSM
     - GSM Only
4. Under Network, the following options are displayed:
   - Automatically select network: Turn ON this option to get connected to the network automatically.
   - Network: Your network operator name is displayed.
   - Access Point Names: You can view the access points related to your SIM provider.

DATA USAGE

To monitor your data usage, adjust your data usage settings.

1. From Home screen, select Menu ( 📲 ) > Settings ( ☰ ) > Network & Internet ( 📡 ).
2. Select Data Usage ( ⚡ ).
3. Usage: You can see the details of the data usage for a particular time frame.
   - Data saver: Enable Data saver to use apps are allowed to use unrestricted data.
4. Select Mobile.
   - Mobile data usage: Displays the data usage for a particular time frame.

HOTSPOT AND TETHERING

You can use hotspot and tethering to provide internet to other devices through your mobile data connection. You can share mobile data connection via USB/mobile hotspot/Bluetooth.

1. From Home screen, select Menu ( 📲 ) > Settings ( ☰ ) > Network & Internet ( 📡 ).
2. Select Hotspot & tethering ( ⚡ ).
3. Enable USB tethering. This is enabled only when USB is connected to the device.
4. Portable Wi-Fi hotspot: Select Portable Wi-Fi hotspot.
   - Set up Wi-Fi hotspot: You can set up a Wi-Fi hotspot by entering the following details:
     - Network name: Enter the network name.
     - Security: Select the security from the drop-down list.
     - Password: The password must have at least 8 characters.
5. Maximum Connections: Your XP5s will support up to ten devices through the Wi-Fi Hotspot.
6. Keep WiFi Hotspot on: Turn off this option when the device is idle for 10 minutes.
7. Enable Bluetooth tethering. When you activate Bluetooth tethering, you can share your phone’s internet connection with other Bluetooth paired devices.
SIM CARDS
You can activate/deactivate SIM 1 and SIM 2.

1. From Home screen, select Menu (⠀) > Settings (⠀) > Network & Internet (⠀).
2. Select SIM cards (⠀) > SIM 1 and SIM 2. You can turn On/Off the SIM cards.

PREFERRED SIM FOR
You can set the preferred SIM for these actions:

1. **Cellular Data**: You can have only one active data connection to the internet. User must set the preferred SIM for connecting to the internet.
2. **Calls**: You can set the default SIM card for the phone calls. Select **Ask every time** option when making any call, you can tap and select the operator.
3. **SMS messages**: You can use only one SIM for sending SMS/MMS messages. Select **Ask every time while sending** any SMS/MMS, you can tap and select the operator.

VPN

1. From Home screen, select Menu (⠀) > Settings (⠀) > Network & Internet (⠀).
2. Select VPN (⠀).
3. Select **Options key** > **Add VPN profile**.
4. In **Edit VPN profile** screen, enter the **Name**, **Type** (select from the drop-down list), and the **server address**.
5. Enter **Username** and **password**.
6. Select **Save**.

AIRPLANE MODE
When your phone is set in airplane mode, network connectivity or mobile data connectivity is disabled. But you can access your camera, media files and other features that do not require mobile connectivity.

To activate airplane mode:

1. From Home screen, select Menu (⠀) > Settings (⠀) > Network & Internet (⠀).
2. Enable **Airplane mode** ( ⬈ ).

RESET NETWORK SETTINGS

1. From Home screen, select Menu (⠀) > Settings (⠀) > Network & Internet (⠀).
2. Select **Reset network settings**. It resets all the network settings including Wi-Fi, mobile data and Bluetooth.
CONNECTED DEVICES

BLUETOOTH
Bluetooth is a short-range wireless communication technology used to communicate between the devices over a distance of about 8 meters.

You can perform the following tasks using Bluetooth paired devices.

- Transfer media files and contacts between connected mobile devices using Bluetooth.
- Use Bluetooth connected headphones for playing media file.
- Bluetooth headset can be used during call.

SCANNING SETTINGS
1. From Home screen, select Menu ( ) > Settings ( ) > Connected devices ( ) > enable Bluetooth ( ).
2. On the Bluetooth screen, select Options key ( ) > Scanning settings.
- Wi-Fi scanning: Turn ON this option to improve location services by allowing the system apps and services to detect Wi-Fi networks at any time.
- Bluetooth scanning: Turn ON this option to improve location services by allowing the system apps and services to detect Bluetooth devices at any time.

RENAME THIS DEVICE
1. From Home screen, select Menu ( ) > Settings ( ) > Connected devices ( ) > enable Bluetooth ( ).
2. On the Bluetooth screen, select Options key ( ) > Rename this device.
3. Rename the device screen is displayed.
4. Enter the desired name and select RENAME.

PAIR NEW DEVICE
You can activate Bluetooth and pair your XP3 device with other Bluetooth devices:

A list of paired Bluetooth devices are displayed. Ensure that Bluetooth is activated on the other device too.

1. From Home screen, select Menu ( ) > Settings ( ) > Connected devices ( ) > enable Bluetooth ( ).
2. On the Bluetooth screen, select Options key ( ) > Pair new device.
3. Select Pair new device to pair a new device. The device will start searching nearby Bluetooth devices. Available devices are listed.
4. Select the desired device from the list. It will start pairing with the selected device. A confirmation message is displayed to pair the device. Select PAIR.

RECEIVED FILES
1. From Home screen, select Menu ( ) > Settings ( ) > Connected devices ( ) > enable Bluetooth ( ).
2. On the Bluetooth screen, select Options key ( ) > Received files.
- Select Received files to view the files received via Bluetooth from different devices.

USB
USB is a plug-and-play interface that allows a computer to communicate with peripheral and other devices.

1. From Home screen, select Menu ( ) > Settings ( ) > Connected devices ( ).
2. Select USB ( ).
1. You can use USB for the following functions:
   - Charge this device: Select this option to use the USB connection for charging this device.
   - Transfer files: When USB is connected and this option is selected, you can transfer the data from one device to another device.
   - Transfer photos (PTP): Select this option to transfer photos using USB connection.
   - Use device as MIDI: Select this option to interconnect the device with musical instruments.
**APPS & NOTIFICATIONS**

**APPS INFO**

2. Select Apps info.
   The list of apps installed on the device are displayed.
3. You can search the desired app using the search tab.
4. Select Options key (_OPTIONS) and the following options are displayed:
   - Show system: System based apps are displayed.
   - Hide system: System based apps are hidden.
   - Reset app preferences: You can reset all preferences you set for the apps.

**NOTIFICATIONS**

2. Select Notifications.
3. Select App notifications. Select the desired app and turn on the notification.
4. Select Notification volume. You can adjust the notification volume as per your desired level.
5. Select Default notification sound. Select the desired ringtone from the list. You can also add a new ringtone using Add ringtone (PLUS).
6. Enable Notification blink light. You can enable/disable this option.
   If there is any notification in your device or missed any calls, a notification blink light glows on the secondary display of your device to notify you.
7. Enable Flash notification alert. When battery is above 20% level, you can use camera flash light for missed events.
8. Enable Flash call alert to use flash light for incoming voice call.

**APP PERMISSIONS**

2. Select App permissions.
   App permissions govern what your app is allowed to do and access.

**EMERGENCY ALERTS**

From Home screen, select Menu (_DEVICES) > Settings (_SETTINGS) > Apps & Notifications (_APPS & NOTIFICATIONS).

- Alerts:
  - Allow alerts: Toggle this option to receive wireless emergency alert messages.
  - Presidential alerts: These alerts mandatory and always turned ON. This is an emergency alert system which allows the US president to address the country in the event of national emergency.
  - AMBER Alerts: Enable this option to get the child abduction and emergency bulletins.
  - Extreme threats: Enable this option to get the extreme threat alerts to life and property. For example; Tsunami, Tornado, Extreme wind, Hurricane and Typhoon warnings.
  - Severe threats: Enable this option to get the severe threat alerts to life and property. For example; Storm surge, Flash flood and Dust storm warnings.

- Alert Preferences:
  - Vibrate: Enable this option to set the device on vibrate during alert.
  - Alert sound duration: You can set the following time duration for alert sound duration: 2 seconds, 4 seconds, 6 seconds, 8 seconds and 10 seconds.
  - Additional Language Alert: Enable this option to get the display of alerts in additional languages.
  - Preview ringtone and vibration: You can hear the ringtone set for the alert.

- Settings for India:
  - Show channel 60 broadcasts: Channel 60 is used in India for Operator specific information.
**BATTERY SETTINGS**

1. From Home screen, select Menu ( 📈 ) > Settings ( 📜 ) > Battery ( ⚡).
2. Set the Battery saver ON by selecting the option given to turn on automatically. You three options to set the battery saver:
   - Never
   - at 5% battery
   - at 15% battery
3. Turn on the Battery Blink light.
4. Battery percentage: Enable this option to show the battery percentage in the status bar.
5. In Last full charge, it shows when the battery is fully charged.
6. The Screen usage duration is displayed.
7. USB Power Saving:
   - Automatic power ON:
     - Automatic power ON: If enabled, the device gets automatically powered ON when the USB is connected.
   - Automatic power OFF:
     - Automatic power OFF: If enabled, the device gets automatically powered OFF at the set time.
     - Power off device at: You can set the time to power off the device.
   - Automatic power OFF: If enabled, the device gets automatically powered OFF when the USB is disconnected at the set time.
   - On USB disconnect, power off: You can set the time to power off the device when USB is disconnected.
   - Sleep: Set the sleep time so that the screen brightness is turned down after specified time of phone inactivity. This setting also optimizes the battery power. The following are the options: 15 seconds, 30 seconds, 1 minute, 2 minutes, 5 minutes, 10 minutes, 30 minutes, 4 hours and 8 hours
8. App usage since full charge: you can view the different applications usage after the battery is fully charged.

Battery usage data is approximate and can change based on the usage.

---

**DISPLAY SETTINGS**

1. From Home screen, select Menu ( 📈 ) > Settings ( 📜 ) > Display ( 📜 ).
2. Set one of the following options to configure your phone’s display:
   - Brightness level: Set the brightness of the phone display. This also optimizes the battery power
   - Wallpaper: Set the wallpaper for your home screen. You can select from one of the following wallpaper collections:
     - Gallery ( 📌 ): includes photos and screenshots taken using the phone’s camera.
     - Wallpapers ( 📌 ): includes images that are pre-loaded with the phone.
3. Select Sleep. Set the sleep time so that the screen brightness is turned down after specified time of phone inactivity. This setting also optimizes the battery power. The following are the options: 15 seconds, 30 seconds, 1 minute, 2 minutes, 5 minutes, 10 minutes, 30 minutes, 4 hours and 8 hours
4. Select Font size. Set the font size of the text as displayed on the screen.
SOUND SETTINGS

From Home screen, select Menu ( ) > Settings ( ) > Sound ( ) .

</tbody>
</table>

Apart from default profiles, user can create customized profiles.

You can select any 3 profiles at a time.

**TO CREATE A NEW PROFILE**

1. From Home screen, select Menu (†) > Settings (⚙️) > Sound (🎵) > Profile.
2. Select Profiles > Option key > Create new.
3. Enter the required profile name. Maximum length of 24 characters is allowed for the profile name and the name should be unique.
4. After modifying the necessary sound and notification settings, save the new profile.

**QUICK PROFILE SWITCH**

1. From Home screen, select Menu (†) > Settings (⚙️) > Sound (🎵) > Profile.
2. Select Quick Profile Switch. You can use this option to quickly switch profiles via home screen shortcut and Speaker key.

**SOUND**

- **Media Volume:** You can increase, decrease, and mute media volume.
- **Alarm volume:** You can increase, decrease or mute the alarm volume.
- **Ring volume:** You can change the ringer volume to no ringer or ringing.
- **Notification volume:** You can change the notification volume to no ringer or ringing.
- **Also vibrate for calls:** Enable this option to set the device on vibration for calls.
- **Phone ringtone:** You can select the required ringtone from the list.

- **Default notification sound:** Set the default notification sound from the list.

**OTHER SOUNDS**

- **Screen locking sounds:** Enable or disable this option.
- **Charging sounds:** Enable or disable this option.
- **Key press tones:** Enable or disable this option.

**NOTIFICATION**

- **Notification blink light:** If the notification blink light is enabled, LED display the notification alert and the battery status indication is not affected.
- **Flash notification alert:** If Flash notification alert is enabled, when battery is above 20% level, you can use camera flash light for missed events.
- **Flash call alert:** If Flash call alert is enabled, you can use Flash camera light for incoming voice call.
- **Wireless Emergency Alerts:** For more information, refer to “wireless Emergency alerts” on page 22

**VOICE NOISE CANCELLATION**

FENS: By default, FENS is enabled and reduces the noise cancellation.

FENS stands for **Far End Noise Suppression.** This feature allows you to suppress unwanted background noise to make your calls clearer.
STORAGE SETTINGS

STORAGE

1. From Home screen, select Menu ( ) > Settings ( ) > Storage ( ).
2. On Internal shared storage, the following options are displayed with memory used for each app:
   - Photos and videos
   - Music and audio
   - Other apps
   - Files
   - System
3. Select Options key ( ) > Free up space to free the space from the storage.

SECURITY & LOCATION SETTINGS

DEVICE SECURITY

You can activate and protect your phone from unauthorized access by configuring the security settings.

1. From Home screen, select Menu ( ) > Settings ( ) > Security & location ( ).
2. The following options are displayed under Device Security:
   - Select Screen lock and select one of the following options to configure the phone:
     - None
     - Press and hold ( ) key
     - PIN: When enabled, enter your own PIN value.
     When the phone is locked, unlock it using the PIN.
     When the phone is locked, you can answer an incoming call without unlocking the phone.
3. Select Owner info. This option is enabled when any of the screen lock is set. Enter the desired owner’s info and select Save.
4. Emergency Info: You can enter the emergency information to be viewed during an emergency. My information screen is displayed. Enter the following details:
   - First name, Last name, Phone number, Email address, Address, Blood type, Allergies, Medication and Organ donor
   If you do not want to enter any of the above details, select Skip.
   Go to Add and you can select the contact from the phonebook by selecting Select contact. OR
   Select Add > Add new. Add First name, Last name and Phone number. Select Add.
   - This contact is added under Emergency contacts list.

PRIVACY

1. From Home screen, select Menu ( ) > Settings ( ) > Security & location ( ).
2. The following options are displayed under Privacy:
   - Set the Location to ON status. Mode option is enabled. Select any one the following options:
     - High accuracy
     - Battery saving
     - Device only
   - App-level permissions: You can set the permission to the desired apps.
   - Scanning: Enable Wi-Fi scanning to improve
location by allowing system apps and services to detect Wi-Fi networks at any time. Enable Bluetooth scanning to improve location by allowing system apps and services to detect Bluetooth devices at any time.

- You can also view the apps which have requested location recently under Recent location requests.

- **Show passwords**: Enable this option to display the password characters as you type in.

- **Device admin apps**: Select the apps and activate the device admin apps.

- **SIM card lock**: Lock SIM card: To use this option, you have to set a PIN number to unlock the device.

- **Encryption & credentials**:
  - **Encryption**: Select Encrypt phone to encrypt your accounts, settings, app and their settings, media and other files. Select **Encrypt phone**.
  - **Credential storage**: Displays the storage type.
  - **Trusted credentials**: You can view and verify the system and user certificates.
  - **Install from SD card**: You can view and install new user certificates from SD card.
  - **Clear credentials**: You can remove all certificates.

- **Trust agents**: To use this option, a screen lock should be set.

- **Apps with usage access**: Select the app and select center key to enable the Permit usage access.

---

## ACCESSIBILITY SETTINGS

### ACCESSIBILITY

You can make websites and applications more accessible to people with disabilities when they are using mobile phones and other devices.

1. From Home screen, select **Menu ( )** > **Settings ( )** > **Accessibility ( )**.
2. Select Volume key shortcut. You can toggle to On and Off.
   - If you turn On, shortcut service to Talkback is enabled.
   - If you turn Off, the shortcut service is not available.

### SCREEN READERS

The following options are displayed under Screen readers.

- **Talkback**: When Talkback is enabled, it helps vision-impaired users interact with their devices. It uses spoken word, vibration and other audible feedback to let you know what is on your screen.

- **Text-to-speech output**:
  - **Preferred engine**: The preferred engine is set.
  - **Language**: You can select the desired language to adjust the spoken language. System language is set as default language.
  - **Speech rate**: You can move the speech rate using the slider to adjust how faster or slower the text will be spoken.
  - **Pitch**: You can move the pitch value using the slider to adjust how high or low the text will be spoken.
  - **Reset speech rate**: Reset the speed at which the text is spoken to normal.
  - **Reset speech pitch**: Reset the pitch at which the text is spoken to default.
  - **Listen to an example**: Play a short demonstration of speech synthesis.

### DISPLAY

The following options are available under **Display**:

- **Font size**: You can set the font size from smaller to bigger and see the preview of the same.
- **Mono Audio**: Enable Mono audio to combine the channels when playing audio.
- **Sound balance**: You can move the cursor to the left or right to balance the sound.
- **Vibrate on Keypress**: You can enable/disable this option to make the device on vibrate when a key is pressed.
- **Captions**: When Captions is set to On, you can set the following options under **Standard options**:
  - Language, Text size and Caption style
**SYSTEM SETTINGS**

**HOME SCREEN SHORTCUTS**
You can set the shortcuts on the home screen.

1. From Home screen, select Menu ( ) > Settings ( ) > System ( ).
2. Select Home screen shortcuts ( ).
3. Go to the Navigation up key and select the app to be set for the up key navigation.
4. Go to the Navigation center key and select the app to be set for the center key navigation.
5. Go to the Navigation down key and select the app to be set for the down key navigation.

**PROGRAMMABLE KEY**
You can assign any application to the programmable key.

1. From Home screen, select Menu ( ) > Settings ( ) > System ( ).
2. Select Programmable key ( ).

**ACCESSORIES**
1. From Home screen, select Menu ( ) > Settings ( ) > System ( ).
2. Select Accessories ( ) > CSM Settings.
3. Turn ON CSM settings to select any application to get CSM settings.
4. You can register CSM application and the same is displayed in Registered CSM applications.

**LANGUAGES & INPUT**
You can set the phone’s language to any of the languages displayed in the language list.

1. From Home screen, select Menu ( ) > Settings ( ) > System ( ).
2. Select Languages & input ( ).
3. Go to Languages and select any language from the list as your preferred language.
   The following languages can be set as a preferred language:
   - English
   - Español
   - Français
   All the menu items and user feedback messages will be displayed in the set language.

4. Select Keyboard & input methods > FlexT9 Text Input.
   - Input language: You can set the input language to either English, Español and Français.
   - Personal Dictionary: You can add the desired custom words to the dictionary. Select Options key > Add to add a word and its shortcut.
   - Preferences:
     - Auto-capitalization: The first letter of the new sentence is automatically capitalized.
     - Auto-punctuation: If this option is enabled, when you press the space key twice at the end of a word, a period will be inserted.
     - Language switch key: Press and hold the ( ) key to switch the language.
     - Next Word Prediction: Predicts a new word based on the previous word entered.
     - Suggest contact names: Displays suggested contact while typing.

5. Select Support > FlexT9 Help. The FlexT9 help guide is displayed.
   Select Support > About. It displays the FlexT9 version details.

6. Select Advanced > Speech > Text-to-speech output. The following options are displayed:
   - Preferred engine: The preferred engine is set.
   - Language: By default, Use system language is selected.
   - Speech rate: You can set the speech rate at your desired level.
   - Pitch: You can set the pitch at your desired level.
   - Reset speech rate: Reset the speed at which the text is spoken to normal.
   - Reset speech pitch: Reset the pitch at which the text is spoken to default.
   - Listen to an example: Play a short demonstration of speech synthesis.

**GESTURES**
1. From Home screen, select Menu ( ) > Settings ( ) > System ( ).
2. Select Gestures ( ).
3. Turn ON Toggle Torch. You can quickly toggle the torch by shaking the device twice.
DATE & TIME
You can set and display the date and time on the phone. You can also select the display format.

1. From Home screen, select Menu ( ) > Settings ( ) > System ( ).
2. Select Date & time ( ).
3. Select the following options to configure phone:
   - To synchronize the date and time with the network provided time, enable Automatic date & time. Disable Automatic date & time to enable Set date and Set time options.
   - To synchronize the time zone with the network provided time enable, Automatic time zone. Disable Automatic time zone to enable Select time zone.
   - To set the date manually, select Set date. Scroll and select the date, month and year. Select Done.
   - To set the time manually, select Set time. Scroll and select the hour and minute. Select Done.
   - To set the time zone, select time zone. Scroll and select your time zone.
   - To set the clock to 24-hour format enable Use 24-hour format. By default, the phone is set to 12-hour format.

SOFTWARE UPDATE
1. From Home screen, select Menu ( ) > Settings ( ) > System ( ).
2. Select Software Update ( ).
3. Select Check for Updates. If there are any updates required, the update process begins. If there are no updates required, a message is displayed as Current software is up to date.
4. Select Continue update to continue the software update process.

RESET OPTIONS
1. From Home screen, select Menu ( ) > Settings ( ) > System ( ).
2. Select Reset options ( ).
3. You can reset the following settings:
   - Reset Wi-Fi, mobile & Bluetooth
   - Network settings reset
   - Reset app preferences
   - Erase all data (factory reset)
MANAGING CONTACTS

You can use the phonebook to maintain phone numbers of your contacts. This feature enables you to add, dial phone numbers and send SMS and MMS messages.

To access the contacts, from Home screen, select Contacts ( ). The contacts saved in the phonebook are displayed.

ADDING NEW CONTACT FOR THE FIRST TIME

After inserting the SIM, when you switch ON the device for the first time and there are no contacts added in the device or SIM, you have only the following two options:

- **Add Contact**: Add New contact screen is displayed. Enter all the details and select Options key > Save to save the contact.
- **Import Contacts**: Select Import Contact to import from .vcf file or import from SIM card.

ADDING A NEW CONTACT

1. From Home screen, select Menu ( ) > Contacts ( ).
2. To add a new contact, select Menu > Contacts > Option key > Add contact. Enter the contact details and select Option key > Save to save the contact.
3. You can also enter a number using dialpad and select Add to contact ( ) and then Create new contact ( ) to add a new contact. Select Option key > Save to save the contact.

VIEWING CONTACT DETAILS

1. From Home screen, select Menu ( ) > Contacts ( ).
2. Scroll to the required contact and select the contact to view the details.

SENDING A MESSAGE FROM CONTACTS

You can send SMS and MMS messages to the contacts.

1. From Home screen, select Menu ( ) > Contacts ( ).
2. Scroll to the required contact and open it.
3. Select Option key > Send message.

4. Enter the message and select Option key > Attach photos/videos to attach the photos and videos.
5. Select Option key > Send.

If you attach a media file or a contact to your SMS message it is converted to an MMS message automatically.

DIALING A NUMBER FROM CONTACTS

1. From Home screen, select Menu ( ) > Contacts ( ).
2. Scroll to the required contact and select the contact to view the details.
3. Select the number and press Center key to initiate the call. OR
4. Select the required contact from the list and press the green button on the phone to initiate the call.

EDITING THE CONTACT DETAILS

1. From Home screen, select Contacts ( ).
2. Scroll to the required contact and select the contact to view the details.
3. Select Option key > Edit.
4. Edit the required details. Select Option key > Save to save the details.

MENU OPTIONS

On the Contacts screen, select Options key to view the menu options. Following are the menu options:

MY INFO:

1. Select My Info and a screen is displayed to add device owner’s name, Phone number and an email id. Select Option key > Save to save the contact details.

If contact details of ME are not saved, the Menu options are not displayed.

- Select Option key and you have the following options:
  - **Send message**: You can select either email or the phone number to send a message.
  - **Edit**: You can edit the contact details.
  - **Share**: You can share your contact details via Messaging and Bluetooth. The contact is shared as .vcf file.
  - **Send Contact**: The contact is sent as a text message to the selected contact.
ADD CONTACT
You can add a new contact by entering all the details. Select Options key > Save to save the contact.

IMPORT/EXPORT

IMPORT FROM .VCF FILE
1. From Home screen, select Menu ( ) > Contacts ( ).
2. Select Option key > Import/export.
4. Press Center key to select the .vcf file to be imported.
5. Select OK.
The contact is imported to the list.

If the device has only one vcf file, it is imported without any selection window.

IMPORT FROM SIM CARD
1. From Home screen, select Menu ( ) > Contacts ( ).
2. Select Option key > Import/export.
3. Select Import from SIM card.
The list of contacts stored in your SIM card are displayed.
4. Select the contact to be moved to the phone.
5. Select Option key > Done.
6. A confirmation message is displayed. Select OK to confirm.
The contact is imported to the phone address book.

EXPORT TO SIM CARD
1. From Home screen, select Menu ( ) > Contacts ( ).
2. Select Option key > Import/export.
3. Select Export to SIM card.
4. Select the contact to be exported from Phone to SIM card.
5. Select Option key > Done.
The contact is exported to the SIM card.

EXPORT TO .VCF FILE
1. From Home screen, select Menu ( ) > Contacts ( ).
2. Select Option key > Import/export.
4. Press Center key to select the contact to be exported.
5. Select Option key > Done.
A message is displayed for the location, where the .vcf file saved.
6. Select OK to confirm.
The .vcf file is exported to the device internal memory.

SHARE ALL CONTACTS
You can send contact information in two different ways:
1. From Home screen, select Menu ( ) > Contacts ( ).
2. Select Option key > Import/export.
3. Select Share all contacts. You can use one of the following options to share the required contact:
   • Messaging: Send the contact details as a multimedia message to any mobile phone.
   • Bluetooth: Send the contact details to a Bluetooth device paired with your phone. Select a Bluetooth device to share the contact.

BLOCKED NUMBERS
You cannot receive either a call or a text message from the blocked number.

SELECT
You can select the required contacts by checking the boxes next to the contact.

SETTINGS
You can set the sort list to view the contacts and also the first or last name of the contact to be displayed first.
1. From Home screen, select Menu ( ) > Contacts ( ).
2. Select Options key > Settings. Set the following options:
   • Sort by: Sort the contact names by first name or last name.
   • Name format: Set the contact display name to first name or last name.
MANAGING CONTACT SETTINGS
You can edit and modify ringtone and call receiving settings for individual contacts.

1. From Home screen, select Menu (Menu) > Contacts (Contacts).
2. Scroll to the required contact and select the contact to view the contact details.
3. Select Options key and select one of the following:
   • Set Ringtone to set a specific ringtone for that contact.
   • Check the option All calls to voicemail to forward all incoming calls from that contact to your voicemail box.

DELETING A CONTACT
1. From Home screen, select Menu (Menu) > Contacts (Contacts).
2. Scroll to the required contact and select the contact to view the contact details.
3. Select Options key > Delete or press Clear (Clear) key. The contact is deleted after the confirmation.
MANAGING CALL SETTINGS

MAKING A CALL

- Press **Green key ( )** or select **Menu > Phone** and the **Call history** can be viewed. The phone screen with last dialed number, missed calls and received calls are displayed.

OR

- From home screen, you can enter the number and initiate a call.

DIALING A NUMBER VIA CONTACT

1. From **Home** screen, select **Menu ( ) > Contacts ( )**.
2. Scroll to the contact and select the contact. The contact details are displayed.
3. Select the required phone number to call the contact.

ADDING A CONTACT FROM HOME SCREEN

1. From **Home** screen, enter the required number to be dialed.
2. Select **Add to contact ( )**
3. Select **Create new contact ( )**.
4. In the **Add new contact** screen, add the name and other details for the contact.
5. Select **Option key > Save**. The contact is saved.

VIEWING CALL HISTORY

1. Press **Green key ( )** or from **Home** screen, select **Menu > Phone ( )**.
2. The **Recent calls** screen displayed with recently called, received, and missed calls.

DELETING CALL HISTORY

1. Press **Green key ( )** or from **Home** screen, select **Menu > Phone ( )**.
2. On the **Recent calls** screen, select **Option key > Delete selected call log**.
3. A confirmation message is displayed to delete the selected call log. Select **Delete** to delete the call log. The selected call log is deleted.

SPEED DIAL SETTINGS

With this option, the user can assign a contact to each key present in the keypad (2 to 9).

To set the speed dial,

1. Press **Green key ( )** or from **Home** screen, select **Menu > Phone ( )**.
2. On **Recent calls** screen, select **Option key > Speed dial settings**.
3. Assign a contact for each key present in the keypad (2 to 9) and Key 1 is used for voicemail.
4. Long press a particular numeric key to initiate a call to the assigned contact.

CALL SETTINGS

To view and modify call settings,

1. Press **Green key ( )** or from **Home** screen, select **Menu > Phone ( )**.
2. On **Recent calls** screen, select **Option key > Call settings**. Different settings are:

QUICK RESPONSES

When you are not able to answer an incoming call, you can send a quick response to the caller. To view and edit quick responses, select **Call settings > Quick responses**. Select the specific response message to edit. Edit the message and select **OK**.

CALLS

I. Calling Accounts:

SIP SETTINGS

- **SIP Accounts:**
  - To add a SIP account and configure your incoming and outgoing preferences:
    1. In the **Call settings** screen, select **Calling accounts > SIP accounts**.
    2. Enable Receive incoming calls to answer incoming internet calls. This might reduce your phone’s battery life.
    3. Select **Option key > Add account** to configure a new SIP account.
    4. Enter the following details and select **Option key > Save** to save the account:
      - **Username:** Username to login to SIP account.
MANAGING CALL SETTINGS

V. Additional Settings:

- **Caller ID:** You can choose **Network default, Hide number,** or **Show number.**
- **Call waiting:** When call waiting is enabled and the phone is in conversation, the incoming number is displayed when you receive a call. To activate call waiting in the Call settings screen, select **Additional settings.** Enable **Call waiting.**

**CALL BLOCKING**

You will not receive calls or messages from the blocked numbers.

**ACCESSIBILITY**

**TTY MODE**

If you enable TTY mode, hearing-impaired individuals can send and receive phone calls as text over the phone.

1. In **Call settings** screen, select **Accessibility > TTY mode** to view and modify TTY mode settings.
2. Set one of the following options:
   - **TTY Off:** Enables TTY mode for both incoming and outgoing calls. Set this for both hearing and voice assistance.
   - **TTY Full:** Enables TTY mode only for incoming calls. Set this for only hearing assistance.
   - **TTY HCO:** Enables TTY mode only for outgoing calls. Set this for only voice assistance.

**HEARING AIDS**

Turn **On** the toggle button to enable the hearing aid compatibility with your device.

**CLEAR ALL CALL LOG**

You can clear the call log using this option.

1. A confirmation screen is displayed with the message; **This will delete all calls from your history.**
2. Select **CLEAR** to delete all calls from your history.

---

- **Password:** Password to login to SIP account.
- **Server:** SIP server details.
- **Optional Settings:** Select to view/modify or hide optional details such as authentication username, display name, outbound proxy address, port number, transport type and Send keep alive options.
- **USE SIP CALLING**
  - Select **Calling accounts > Use SIP calling.**
  - A dialog is open with the following options:
    - **For all calls:** If this option is selected and when the phone is connected to Wi-Fi network or mobile internet, each dialed call becomes an internet call.
    - **Only for SIP calls:** If this option is selected, only SIP call can be dialed.
- **RECEIVE INCOMING CALLS**
  Enable Receive incoming calls to answer incoming internet calls.
  This might reduce your phone’s battery life.

---

II. VOICEMAIL:

- **Service:** Displays the Service name. It is displayed as **My carrier.**
- **Setup:** You can set a number for voicemail.

III. Fixed Dialing Numbers:

- **Enable FDN:** Fixed Dialing numbers are disabled.
- **Change PIN2:** Change the PIN for FDN access.
- **FDN List:** Manage phone number list.

---

IV. Call Forwarding:

You can forward your incoming calls to a number in the contacts or a new number, provided your network operator supports this service.

Select one of the following call forward options:

<table>
<thead>
<tr>
<th>SETTINGS</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Always forward</td>
<td>Forward all incoming calls to a pre-designated number.</td>
</tr>
<tr>
<td>When busy</td>
<td>Forward calls when your phone is busy.</td>
</tr>
<tr>
<td>When unanswered</td>
<td>Forward calls when you do not answer incoming calls.</td>
</tr>
<tr>
<td>When unreachable</td>
<td>Forward calls when your phone is switched off or is out of coverage area.</td>
</tr>
</tbody>
</table>
SENDING MESSAGES

SMS and MMS are convenient and inexpensive means of communication. You can send a text message to other people via SMS service. MMS allows you to send messages by including multimedia content such as pictures, audio files, video files, and so on.

You can use the Messaging in your phone to send an SMS and MMS message to other mobile phones or any other equipment that can receive SMS and MMS.

The MMS feature is available only if you subscribe it from your network operator.

To access the message function, from Home screen, select Messaging ( ).

SENDING SMS/MMS MESSAGE

You can send SMS and MMS messages to contacts in your phonebook and to new numbers that are not present in the phonebook.

1. To create a SMS message, from Home screen, select Messaging ( ).
2. Select Option key > New message.
3. Select Add Contact. Search for the desired contact for which the message to be sent.
   If you enter an alphabet, all the contact names starting with that alphabet and containing that alphabet are displayed as a list. Scroll down to select the contact.
4. Enter the message.

   When you add an attachment, the message is automatically converted to a multimedia message. MMS charges will apply, based on the operator.
5. You can add any multimedia attachment up to the size of <= 1 MB. To add an attachment, select Options key > Attach photos/videos. Browse to a specific folder and select the multimedia file to be attached.
6. Select Option key > Attach others. Select the attachment type from the options in the next step.

<table>
<thead>
<tr>
<th>ATTACHMENT TYPE</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td>Capture picture</td>
<td>Take a new photo using the mobile camera and attach.</td>
</tr>
<tr>
<td>Capture video</td>
<td>Take a new video using the camcorder and attach.</td>
</tr>
<tr>
<td>Audio</td>
<td>Attach an audio file from the phone memory.</td>
</tr>
<tr>
<td>Record audio</td>
<td>Record a new audio using the sound recorder and attach.</td>
</tr>
<tr>
<td>vCard</td>
<td>Attach a contact available in the phone.</td>
</tr>
<tr>
<td>vCalendar</td>
<td>Attach a calendar event.</td>
</tr>
</tbody>
</table>

7. Select Insert from Template. You can insert a message template from the displayed list.
8. Select Insert contact. You can insert a contact from the phonebook.
9. Select Discard to delete the message. The message thread is deleted after confirmation.

SEARCH

To search a particular message, on a new message screen, select Options key > Search. Enter the key word to search a particular message.

SELECT

To select a particular message, on messages screen, select Options key > Select. Press the center button to select message. The box next to the message is checked.

DELETE SELECTED THREAD

To delete the selected messages thread,

1. From Home screen, select Messaging ( ).
2. Select the message and press Option key > Delete selected thread or select a message thread and press Clear key ( ).
3. A confirmation message is displayed. Select Delete to delete the selected message.
4. To delete an individual conversation, select the conversation to be deleted and select Delete option and confirm the choice.
WIRELESS EMERGENCY ALERTS
You will receive active alerts and emergency alerts from the service provider. For more information, refer to “wireless Emergency alerts” on page 22.

MESSAGE SETTINGS
You can customize the way you want to view and filter the messages.

To view and modify the message settings,

1. To edit message settings, from Home screen, select Messaging ( ).
2. Select Option key > Settings.
3. View and edit the following settings:

<table>
<thead>
<tr>
<th>SETTINGS</th>
<th>DESCRIPTION</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td><strong>NOTIFICATION</strong></td>
</tr>
<tr>
<td>Vibrate</td>
<td>Enable vibrate alert for incoming messages.</td>

- Device Information
- Terms of Use
- Contact Sonim Support
  - Call
  - Email
APPLICATIONS

MUSIC
You can play music files and voice memos stored in your phone using the music application.

From Home screen, select Menu ( ) > Applications ( ) > Music ( ).

• Select Artists to view the music files sorted based on the artists.
• Select Albums to view the music files sorted based on the albums.
• Select Songs to view the complete list of songs stored in your phone.
• Select Playlists to access the default playlists in the music folder.
• Select Recently added playlist to view the music files that are recently added to the music folder.
• Select My recordings playlist to access all your voice memo files.

FM RADIO
You can listen to the radio through FM radio. A wired Headset should be connected to enable FM radio.

1. To listen to the radio, select Menu ( ) > Applications ( ) > FM Radio ( ).
2. A message Connect Headset is displayed.
   Connect a wired Headset with the side connector to enable FM Radio. FM radio icon is displayed on the Notification bar.
• Side Connector: As the Sonim XP5s device does not support the jack, side connector is used to plug-in the jack and listen to FM radio over the headset.
3. Select Options > Radio On to turn on the radio.
4. Select Options and the following options are displayed:
   • Auto Scan:
     • On selecting Auto Scan for the first time, the device starts scanning all available stations and a pop-up message is displayed; Scanning for all stations.
     • Once the scanning is completed, a confirmation message is displayed on All Channels screen; Scan Complete: Number of channels scanned.
     • If any channel present in Preset list, select Auto Scan and a pop-up message is displayed; Clear the channels list? Select Yes to scan all available channels.
   • All Channels: All scanned channels are listed.
   • Preset: Connect to a particular station and select Options > Add to presets. The selected channel is added to the preset list.
   5. Select Preset > Options and the following options are displayed:
     • Rename: You can rename the channel/station.
     • Remove from presets: Selected channel is removed from the preset.
   • Loud Speaker/Wired Headset: You can set the radio on loud speaker. When you set the radio on loudspeaker mode, it displays Wired Headset as an option.
   • Sleep: You can turn off the radio after a selected time frame:
     • 15 minutes
     • 30 minutes
     • 45 minutes
     • 1 Hour
   • Start Recording: You can record the audio which is broadcasted on the radio to listen to the same later.
   • Settings: The following options are displayed under Settings:
     • Regional Band: The regional band with frequency range is displayed.
     • Audio Output Mode: Select any of the following options as a output mode: Stereo or Mono
     • Alternate Frequency: Check this option enable/disable the auto selection of alternate frequency.
     • Revert to Factory Defaults: This option deletes all the settings including Presets. Select OK to confirm.
     • Radio off: Select this option to turn off the radio.
FILE EXPLORER

You can view/edit/delete/share the files stored in the phone through File Explorer.

To view the files, select Menu > Applications > File Explorer.

Select any file and press Option key to view the following options:

- **Recent**: Displays the recent files captured or stored.
- **Share**: Share the file or file via Messaging/Bluetooth.
- **Copy to**: Copy the contents of the file.
- **Properties**: View the properties of the file.
- **Select**: Select a particular file.
- **Exit**: You can select Exit option for exiting from File Explorer.

- **Downloads**: Displays the different file under Downloads.
  - **Share**: Share the file via Messaging/Bluetooth.
  - **Delete**: Delete the existing file.
  - **Exit**: You can select Exit option for exiting from File Explorer.

- **XP5800**: Displays the different file in the device drive.
  - **Search**: Search for the file and file.
  - **Delete**: Delete the existing file.
  - **Copy to**: Copy the contents of the file.
  - **Move to**: Move the contents of file.
  - **Rename**: Rename the existing file.
  - **Properties**: View the properties of the file.
  - **Select**: Select a particular file.
  - **Sort by**: You can sort the file using Sort option. Sorting options are; By Name, By Date Modified and By Size.
  - **New folder**: You can create a new file.
  - **Exit**: You can select Exit option for exiting from File Explorer.

If SD card is inserted, all the files in the SD card can be view/edit/delete/share from file explorer.

BACKUP AND RESTORE

If you need to replace your device or erase its data, you can restore your data for any accounts that were previously backed up.

To back up your data,

1. From Home screen, select Menu > Applications.
2. Select Backup and Restore.
3. Select Backup.
   - All your contacts, Calendar, SMS and MMS data will be backed up and media content like photos, audio and videos will be moved to SD card.
   - A warning message is displayed Backup may take few minutes. Please do not perform other operations during this time.
   - Select OK to start the backup.
4. Select Restore.
   - The contacts, Calendar, SMS and MMS are restored.

A memory card is required to create a device back-up.

DOWNLOADS

Use the Downloads screen to view, open, or delete the downloaded files.

1. From Home screen, select Menu > Applications.
2. Select Downloads.
3. Select Options > Select to select the downloaded file to be opened, viewed or deleted.
4. Select Options > Settings. Different settings are displayed.

VOICE COMMANDS

1. From Home screen, select Menu > Applications.
2. Select Voice Command.
3. Different tasks which Voice Command can perform are listed. Speak out the desired command from the list.
CLOCK
You can view the time of major cities in different time zones using this function.

1. From Home screen, select Menu ( ) > Tools ( ).
2. Select Clock ( ).
3. Select World clock icon ( ) located on the top of the screen. To add a city, select Option key > Select cities. Select the check boxes next to the cities to add them to the Clock.
   • The local time in the home city is displayed in the upper half of the screen.
   • To set the home city, select the required city from the list. It is added to the selected cities list. The selected city is set as the home city.
4. Select Option key > Settings and the following options are displayed:
   • Clock:
     • Style
     • Automatic home clock
     • Home time zone
     • Change Date & time
   • Alarms:
     • Silence after
     • Snooze length
     • Alarm volume
     • Gradually increase volume
     • Volume buttons
     • Default alarm tone
     • Start week on
   • Timers:
     • Timer ringtone
     • Gradually increase volume

ALARM
You can set an alarm for a particular time.

1. From Home screen, select Menu ( ) > Tools ( ).
2. Select Clock ( ).
3. Select Alarm activation icon ( ) on the top of the screen.
4. Select Option key > Add to add a new alarm.
5. To set a recurring alarm, select Option key > Edit.
   You can choose and set the following options:
   • Time: You can set the required time.
   • Repeat: You can select the days in a week to repeat the alarm for all the selected days.
   • Alarm Ringtone: Select the alarm ringtone.
   • Label: You can name the alarm.
   • Vibrate: Enable this option to set the device on vibrate when the alarm rings.
6. Select any of the ringtones from the Default alarm tone sound present, and select OK.
   The alarm will work even when the phone is set in silent mode.

TIMER

CALCULATOR
The default calculator in this phone is designed to perform simple mathematical calculations and the advanced panel for scientific calculations.

1. From Home screen, select Menu ( ) > Tools ( ) > Calculator ( ).
   • To enter the numbers, select the numeric keys.
   • To use mathematical operators, select the respective operation key on the keypad.
   • Select = for the final result.
2. Select Option key > Advanced panel for scientific calculations.
   You can toggle between Basic panel and Advanced panel.
SOUND RECORDER

You can record voice memos using the sound recorder.

To access the sound recorder,

- From Home screen, select Menu ( ) > Tools ( ) > Sound Recorder ( ) .
- To record an audio file, select Record ( ).
- To stop the recording, select Stop ( ).
- To save the voice memo, press left arrow key and select Save.
- To exit without saving, press left arrow key and select Discard.
- To play the recorded file instantly, press right arrow key and select the file to be played. Press Center key to play the voice memo.
- To pause the recording instantly, press the centre key.

OTHER APPLICATIONS

CAMERA

The Sonim XP5s has a rear camera with 5MP fixed focus for taking pictures. The pictures are saved in the Gallery.

1. From Home screen, select Menu ( ) > Camera ( ).
2. Select Camera mode to set the following modes:
   - Normal ( ): To shoot a picture in normal mode, press center key to capture the picture. Use Left and Right navigation keys for Zoom in and Zoom out.
   - Video ( ): Press center key to start/stop a video recording. You cannot pause the recording in the middle.
3. Select Option key to view or change camera settings such as Flash, Exposure, and File Format etc.

CALENDAR

The Calendar helps you to set appointments, schedule reminders and alerts and repeat them if required. You can also view your saved tasks on a daily or weekly basis.

To access calendar;

1. From Home screen, select Menu ( ) > Calendar ( ).
2. To change the calendar view, choose Month or Agenda from Options menu.
3. Select Options key to view the list of the following available options:
   - Today: Access current date events.
   - New event: New event can be added on selecting this option.
   - Agenda: Select each agenda and to view the event details.
   - Search: You can search for a particular event.
   - Delete Events: Select the event > Option key > Done to delete the selected event. Select Select all to delete all the events.
   
   When you have an event, the Delete events option is enabled.
   
   - Settings:
     - Displays the General settings of the calendar.
     - Displays the Build version in About Calendar.
GALLERY

The pictures, videos, and screenshots captured from the camera are stored in Gallery and can be viewed later.

From Home screen, select Menu ( ☰️ ) > Gallery ( 📷).
You can view the photo album, screenshots and the individual pictures.

BROWSER

1. From Home screen, select Menu ( ☰️ ) > Browser ( 🌐).
2. Enter the URL to search for the required information or any website.
3. Select Option key and you can view the list of options such as;
   - Go to URL
   - Homepage
   - Switch Tabs
   - Refresh
   - Forward
   - Bookmarks
   - Save to bookmarks
   - History
   - Copy URL
   - Share page
   - Find on page
   - Request desktop site
   - Settings
   - Exit

END USER LICENSE AGREEMENT (EULA)

This wireless device, (the “Device”) contains software owned by Sonim Technologies, Inc. (“Sonim”) and its third party suppliers and licensors (collectively, the “Software”). As user of this Device, Sonim grants you a non-exclusive, non-transferable, non-assignable license to use the software solely in conjunction with the Device on which it is installed and/or delivered with. Nothing herein shall be construed as a sale of the Software to a user of this Device.

You shall not reproduce, modify, distribute, reverse engineer, decompile, otherwise alter or use any other means to discover the source code of the Software or any component of the Software. For avoidance of doubt, you are at all times entitled to transfer all rights and obligations to the Software to a third party, solely together with the Device with which you received the Software, provided always that such third party agrees in writing to be bound by these rules.

You are granted this license for a term of the useful life of this Device. You can terminate this license by transferring all your rights to the Device on which you have received the Software to a third party in writing. If you fail to comply with any of the terms and conditions set out in this license, it will terminate with immediate effect Sonim and its third party suppliers and licensors are the sole and exclusive owner of and retain all rights, title and interest in and to the Software. Sonim, and, to the extent that the Software contains material or code of a third party, such third party, shall be entitled third party beneficiaries of these terms. The laws of Delaware, United States shall govern the validity, construction and performance of this license.
REGULATORY INFORMATION - USA MARKET

RF EXPOSURE INFORMATION (SAR)
This device meets the government’s requirements for exposure to radio waves.
This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The exposure standard for wireless device employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg. *Tests for SAR are conducted using standard operating positions accepted by the FCC with the device transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value. This is because the device is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

The highest SAR value for the model device XP5800 (Type number PG2112) as reported to the FCC:

- when tested for use at the ear is 0.98W/kg, and
- when worn on the body, as described in this user guide, is 1.35W/kg (Body-worn measurements differ among device models, depending upon available accessories and FCC requirements.)

While there may be differences between the SAR levels of various devices and at various positions, they all meet the government requirement.

The FCC has granted an Equipment Authorization for this model device with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model device is on file with the FCC and can be found under the Display Grant section of www.fcc.gov/oet/ea/fccid after searching on FCC ID: WYPPG2132.

For body worn operation, this device has been tested and meets the FCC RF exposure guidelines for use with an accessory that contains no metal and be positioned a minimum of 1.5cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. If you do not use a body-worn accessory and are not holding the device at the ear, position the handset a minimum of 1.5cm from your body when the device is switched on.

FEDERAL COMMUNICATION COMMISSION INTERFERENCE STATEMENT
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC CAUTION

- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any
a minimum of 1.5cm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines. If you do not use a body-worn accessory and are not holding the device at the ear, position the handset a minimum of 1.5cm from your body when the device is switched on.

HAC RATING

The FCC has created a rating system for cellular phones regarding their HAC-related performance. This rating helps consumers with hearing disabilities to find phones that work well with their hearing aid devices. The HAC rating and measurement procedure are described in the American National Standards Institute (ANSI C63.19-2011) contains two rating standards: an “M” rating from 1 to 4 for hearing aids operating in microphone mode, and a “T” rating from 1 to 4 for hearing aids operating in tele coil mode. M-Rating stands for Microphone rating and indicates the amount of reduction of RF interference between the telephone and the hearing aid in acoustic coupling mode (also called microphone mode). Phones rated M3 or M4 meet FCC requirements and generate less interference to hearing devices set in microphone mode. T-Rating stands for tele coil rating and represents inductive coupling with hearing aids that are operating in telecoil mode. A tel coil is a small piece of tightly wrapped wire, built into some hearing aids.

microphone of a hearing aid picks up all sounds, the telecoil only picks up an electromagnetic signal from the telephone. Thus, users of telecoil-equipped hearing aids are able to communicate over the telephone without the amplification of unwanted background noise. Phones rated T3 or T4 meet FCC requirements and generate less interference to hearing devices set in telecoil mode. A combination of M-rating and T-rating defines the final HAC rating and is a deciding factor in selecting cellular phones for people with hearing problems. A HAC compliant phone could be rated:

- M3/T3
- M3/T4
- M4/T3
- M4/T4

These ratings assist hearing device users to find phones that are compatible with their hearing devices. Ratings are shown on the phone’s box or label. The ratings are not guaranteed for suitability. The results vary depending on the individual’s hearing loss and the immunity characteristics of the used hearing device, i.e. its resistance to interference. The best way to evaluate the suitability of the phone is to try it with the intended hearing aid device.

The model XP5800 have been tested for hearing aid device compatibility and complies with the Federal Communications Commission (FCC) requirements. These devices are rated M3/T4.
HAZARDOUS LOCATION USAGE WARNING

Determine by inspection that the following information is made available to the user by one or more of:

(a) Printed on the label for the battery
(b) Printed on the label for the host device,
(c) Printed in the owner’s manual, and/
or (d) Posted in a help file or internet web site.

- Do not disassemble or open crush, bend or deform, puncture or shred.
- Do not modify or remanufacture, attempt to insert foreign objects into the battery, immerse or expose to water or other liquids, expose to fire, explosion or other hazard.
- Only use the battery for the system for which it is specified.
- Only use the battery with a charging system that has been qualified with the system per CTIA Certification Requirements for Battery System Compliance to IEEE 1725. Use of an unqualified battery or charger may present a risk of fire, explosion, leakage, or other hazard.
- Do not short circuit a battery or allow metallic conductive objects to contact battery terminals.
- Replace the battery only with another battery that has been qualified with the system per this standard, IEEE-Std-1725. Use of an unqualified battery may present a risk of fire, explosion, leakage or other hazard. Only authorized service providers shall replace battery. (If the battery is non-user replaceable).
- Promptly dispose of used batteries in accordance with local regulations.
- Battery usage by children should be supervised.
- Avoid dropping the phone or battery. If the phone or battery is dropped, especially on a hard surface, and the user suspects damage, take it to a service center for inspection.
- Improper battery use may result in a fire, explosion or other hazard.
