Intro

We offer accessories, not afterthoughts.

For your customers, every mission is critical. But every mission is also different, with different functional requirements from their communication device.

Sonim ensures that any accessory we provide is not simply an add-on, but truly helps the device’s user do their job more efficiently and more reliably.
Handset Interfaces

**Sonim SecureAudio 3.5mm Connector**
- Securely attach mission critical audio accessories
- Audio accessories reliably twist into handsets
- Increase audio performance via accessories

**Charging Pins**
- Charge your device via externally exposed charging pins
- Enables drop-in and go desktop and multi-bay chargers

**Sonim SecureConnect USB-C**
- Compatible with USB-C accessories, with the ability to create custom accessories that screw into the handset for an ultra-reliable connection
- XP3 USB 2.0 is unable to power accessories, unable to be used for audio and power at the same time, and is not compatible with 3.5mm adapters.
Communicate reliably with Sonim SecureAudio 3.5mm Connector.

As with safe driving being the driver’s obligation, the requirement for compliance with laws while operating communications equipment, where permitted while driving, is the obligation of the driver and not the manufacturers of referenced products. Check state and local requirements where you expect to use in-vehicle communications equipment.
