WARRANTY

XP5plus

Reliable communication for the world's most extreme conditions.

For those who rely on both cellular and push-to-talk communication, the FirstNet Ready®, Sonim XP5plus is the best of both worlds. Building on the legacy of its predecessor (the Sonim XP5s), is the addition of two easy-to-use control knobs*—for channel select and volume control. Push-to-Talk and never take your eyes off the mission. The improvements don't stop there. With longer battery life and a larger screen, the XP5plus truly raises the bar on two-way capability. Third-party tested. Validated to MIL-STD-810H. You know it will thrive even in the most punishing conditions.

Sonim XP5plus. The only way to two-way.

*Also available without top-mount channel select and volume control knobs.

Features

Top-mount PTT control knobs for volume and channel select offer constant situational awareness

Three dynamic buttons designed for increased screen functionality

FirstNet Ready® for Public Safety to instantly, securely connect when and where it matters most

3500mAh battery provides reliable power for entire work shifts and beyond with no recharging

Goodix Noise/Echo Cancellation Technology lets you hear and be heard louder and clearer than ever before

Hassle-Free Deployment and SonimWare™ Software Tools
