

Sonim Solutions
/Transportation

Effortless device management for effortless fleet management.

Empower productivity
with the rugged reliability
of Sonim solutions.

Just like your trucks, our rugged devices are industry workhorses. Built to serve and built to last, Sonim mobility solutions address the communication, control and cost needs of fleet operators in supply chain, delivery services, field maintenance and transportation hubs.

From pre-deployment to the everyday, we're a true partner for the transportation industry, delivering the utility, all-day power and hands-free compliance you need at a low cost-of-ownership.

With ultra-rugged feature phones and smartphones, Sonim customizes our devices and solutions to deliver the apps, accessories and support your office and fleet need to get the job done.

Transportation partners prefer the Sonim XP10 & Sonim XP5plus

- Dedicated OneTouch PTT

Productivity

From management, to dispatch, to fleet, Sonim empowers your whole team with all-day connectivity all in one device.

- Onboard scanning (XP10)
- Pair with Mobile Resource Management for real-time GPS, time sheet, mileage and dispatch reporting
- Sonim Scout for easy provisioning and device management
- Dedicated OneTouch PTT
- 100dB+ speakers rise above the noise
- Multi-shift battery life & quick-charge

Safety

Technology solutions that provide peace of mind.

- GPS Tracking/Location
- Secure-connect vehicle mounts / cradles and hands-free accessories
- Emergency Man-down/Lone Worker panic button integration and sensor

Durability

Devices that work where you work. Sonim devices meet the most punishing, demanding and exacting Rugged Performance Standards in the industry.

- Drop, impact, shock, pressure and puncture resistant
- Waterproof and chemical-resistant
- Replaceable, 5000 mAh (XP10) and 3500 mAh (XP5plus) batteries
- Military 810H rating
- Non-Incendive Class I, II, III Div 2 ratings
- 3-year comprehensive warranty

Powerful Apps and Accessories

Sonim offers an entire suite of Sonim SecureAudio Connector accessories and apps designed to maximize efficiency and compliance, plus support for critical company-loaded applications.
